IMPORTANT NOTES:

- As of now, we are still unsure if there will be games played against the other communities due to all of the restrictions of COVID-19, but we will be having practice/skill based training sessions for the time being. If we do get permitted to play games, a schedule will be released at a later date.
- In order for there to be a soccer program this summer, we will need a number of volunteers/parents to help out. If you or anyone you know would be willing to volunteer, please indicate that when filling out your child's registration.
- Due to the soccer program being started later, we are looking at extending the season and going later into August (possible early September), compared to previous years.
- We still want to follow all health regulations regarding COVID-19. So we ask if parents wish to spectate a practise that they still social distance and stay 6-feet from other parents.
- Once registration is finalized, we will be calling/emailing parents with details and times.
